

**Topsham Garden Club**  
**August 2021 Program**

***"Flower Arranging with Cut Flowers from Your Garden"***

a demonstration by

**Master Gardener [Lynne Holland](#)**

from the [Androscoggin-Cumberland Cooperative Extension Program](#)

**Wednesday, August 11, at 12:00 Noon**

under a tent at [The Highlands](#) in Topsham

Lynne will present a program on flower arranging using cut flowers from your garden. She will create several arrangements, which will be auctioned off after the program.

Please bring an assortment of cut flowers from your garden. Cut them the day before and condition them overnight in a deep water bath of cool water. This will keep them fresh longer. If you have containers (even a wide-mouth Mason jar) that you don't mind losing should they be auctioned, please bring them.

Bring a bag lunch for after the meeting. The club will provide beverages and desserts.

There will be a brief business meeting after the social period.

**Directions:**

The event tent is set up in the parking lot behind the Maine Lodge. It is accessible (and very visible) from Governors Way, the main road through [The Highlands](#).

Parking is very limited so please carpool with friends, if possible.
