

Topsham Garden Club
Wednesday, January 11, 2017
Topsham Public Library, 25 Foreside Road, Topsham

12:00 - Bring-your-own lunch with coffee & dessert provided by the club

12:30 - Business meeting

**1:30 - Speaker : Matt Dubel, Executive Director,
Cathance River Education Alliance (CREA)**

As a financial supporter of the [Cathance River Education Alliance](#), the Topsham Garden Club has invited the Executive Director, Matt Dubel, to present an overview of CREA's organization, mission, programs, research, camps, etc. and ongoing projects and/or plans for 2017. The purpose is to educate and provide us with an update on CREA and the value of our support.

CREA was formed in 2000 to establish a 235-acre Cathance River Preserve.

The mission of the **Cathance River Education Alliance** is to use the natural resources of the Cathance River Preserve to promote ecological awareness and nature-based learning among students, educators, and the public; to foster the wise use of the Preserve; and to prepare future stewards of the Cathance River.
